

It's your skin, take care of it! WEBINAR

04/02/2025 : 10:00-11:30

Free of charge - registration is mandatory

Occupational skin diseases, such as dermatitis, eczema, allergic reactions, etc., can be caused by various factors. In this webinar, we will look at these occupational diseases and their causes. You will also be given practical examples of how to manage the Skin care of your employees in your company and organisation.
